

Wave's hat

Designed by Clare Sullivan

Video tutorial - <http://youtu.be/TbCbT7ZrVQA>

US terminology

Intermediate

100 gms / 3.5 oz of Red Heart Shimmer

4 mm / G hook

Scissors

Yarn needle

Tape measure

- **Head sizing information is available at the end of the pattern**
- **Ch 3 counts as a stitch**

Crown

Ch 4 and join or Magic circle

1. Ch 3 (counts as first stitch) 15 dc into ring, join with a slip stitch to the top of the ch 3
2. Ch 3, 4 dc into same stitch, skip a stitch *5 dc into next, skip a stitch* repeat from * to * around, join with a slip stitch to the top of the ch 3 – you will have 8 shells
3. Slip stitch into next stitch, ch 3, 5 dc into next stitch (this will be the middle stitch of the 5 dc from previous round) dc into the next stitch, skip 2 dc *1 dc into next stitch, 5 dc into next stitch (this will be the middle stitch of the 5 dc from previous round) dc into the next stitch, skip 2 stitches* repeat from * to * around, join with a slip stitch to the top of the ch 3
4. Slip stitch into next stitch, ch 3, 1 dc into the next stitch, 5 dc into next stitch (this will be the middle stitch of the 5 dc from previous round) dc into the next 2 stitches, skip 2 dc *1 dc into next 2 stitches, 5 dc into next stitch (this will be the middle stitch of the 5 dc from previous round) dc into the next 2 stitches, skip 2 stitches* repeat from * to * around, join with a slip stitch to the top of the ch 3
5. Slip stitch into next stitch, ch 3, 1 dc into the next 2 stitches, 5 dc into next stitch (this will be the middle stitch of the 5 dc from previous round) dc into the next 3 stitches, skip 2 dc *1 dc into next 3 stitches, 5 dc into next stitch (this will be the middle stitch of the 5 dc from previous round) dc into the next 3 stitches, skip 2 stitches* repeat from * to * around, join with a slip stitch to the top of the ch 3

If you need more increasing continue adding rounds. When your crown is to the size you need – head sizing information at the end of the pattern – continue with the sides of hat

Sides of hat – no more increasing

6. Slip stitch into next stitch, ch 3, 1 dc into the next 3 stitches, **3 dc** into next stitch (this will be the middle stitch of the 5 dc from previous round) dc into the next 4 stitches, skip 2 dc *1 dc into next 4 stitches, **3 dc** into next stitch (this will be the middle stitch of the 5 dc from previous round) dc into the next 4 stitches, skip 2 stitches* repeat from * to * around, join with a slip stitch to the top of the ch 3
7. Repeat last round – stop 1 round short of length needed

If you have made a different size you will have a different amount of stitches, so I will write a recipe not a stitch by stitch edge

Straight edge

- The 3 dc in the previous round that we worked all into the same stitch, you need to sc into each of these, either side of the 3 stitches you need a hdc and any other stitches are a dc BUT you still need to skip the 2 stitches that we have skipped the whole way through the pattern – join at the end with a slip stitch

- Sc in each stitch around

Wavy edge

1. Ch 1, sc into same stitch and each stitch until you get the 2 stitches that we would normally skip – into these 2 stitches do a sc dec - repeat this around
2. Ch 1, sc into each stitch – sc dec into the sc dec from previous row

Head Measurements

0-3 months

Hat height = 5.5 - 6"

Head Circumference 14"

Make crown 4 ½ inch across

3 to 6 months

Hat height= 6.5 - 7"

Head Circumference: 14" - 15"

Make crown 4 ½ inch – 4 ¾ inch across

6 to 12 months

Hat height = 7.5"

Head Circumference: 16" - 18"

Make crown 5 inch – 5 ¾ inch across

12 months - 3 years

Hat height = 8"

Head Circumference: 18" to 19"

Make crown 5 ¾ inch – 6 inch across

3 - 10 years

Hat height =8.5"

Head Circumference: 19" - 20 1/2"

Make crown 5 ¾ inch – 6 ½ inch across

Teenager

Hat height 9-10"

Head Circumference: 20 1/2" - 22"

Make crown 6 ½ inch – 7 inch across

Adult Woman

Hat height 9-10"

Head Circumference: 21.5" - 22.5"

Make crown 6 ½ inch – 7 inch across

Adult Man

Hat height 9-10"

Head Circumference: 23" - 24"

Make crown 7 ¼ inch – 7 ½ inch across

Mathematical formula to make your hat fit

Head circumference measurement divided by 3.14 = the measurement from 1 edge to the other. Keep increasing until you have that measurement

For example:

58cm divided by 3.14 = 18 cm (The answer is 18.4cm, you need to round down your answer to nearest whole number)

Keep increasing the hat crown until it is 18cm

The formula will also work for inches

Crochet stretches so keep this in mind when making hats. If you make a hat ½ inch smaller than given measurements it will stretch to fit
