Cowl

Measure the head that you want to make it for

Add 1 inch or 3 cm to that measurement

Example – 58 cm + 3 cm = 61 cm

With buff make your chain as long as your final measurement

Being careful not to twist, join with a slip stitch to the first ch

1. Ch 3 (does not count as a stitch) dc into same stitch, dc into each ch around, slip stitch to the 1st dc
2. Repeat last round for length of project
Finish off and sew in ends

- Count the amount of stitches you have and divide by 3
Example
100 stitches divide by 3 = 33 (round to nearest number)
- From where you finished off count 33 stitches to the **left** and place a stitch marker
- From where you finished off count 33 stitches to the **right** and place a stitch marker
You will be crocheting into the stitches in the larger section between the stitch markers

Join yarn into the right hand (if you are right handed/left if you are left handed) marked stitch

1. Ch 3, dc in each stitch across until you reach second stitch marker, turn
2. Repeat last row for as long as you need it (see measurement guide at end of pattern)

Ears Make 2

Mr
